Dear Dawn:

As we discussed in previous conversations, I am enclosing an article that hopefully will be published in *Pet's Pages* as it expresses the basics of our animal rights philosophy and our place in the movement.

The issue of a paid advertisement will be revisited in a discussion at our next board of directors' meeting.

Thank you for your solicitation and interest in our organization and most importantly for your compassionate attitude toward animal protection. We look forward to a continued positive relationship with you and your publication.

Humanely yours,

Elise M. Matthes
